

Kika Osunde

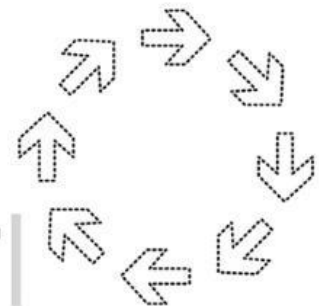

Website Changes: Phase 1– 10/08/21

Actions:

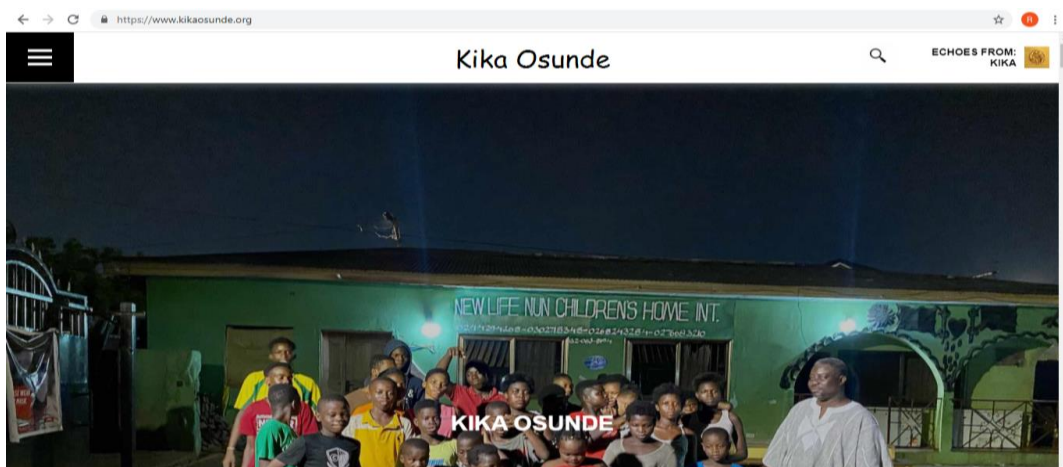

Homepage

- Please update the **Kika Osunde** title at the top of the website page to the font requested by Kika. Have you tried the Nimbus font? Example of style of font she would like below.

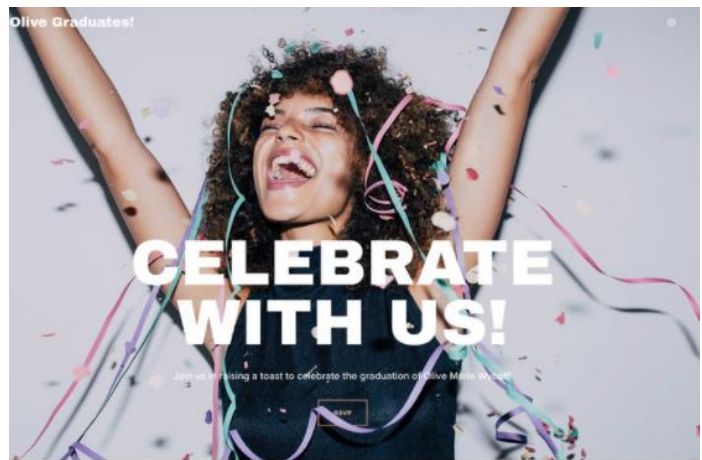

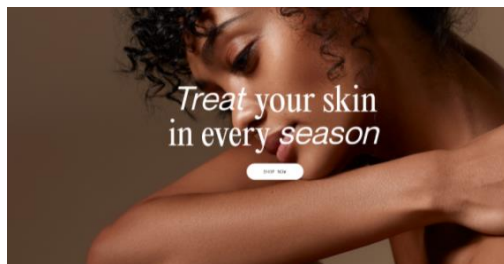

NEJ TIL
PESTICIDER I
GRUNDVANDET

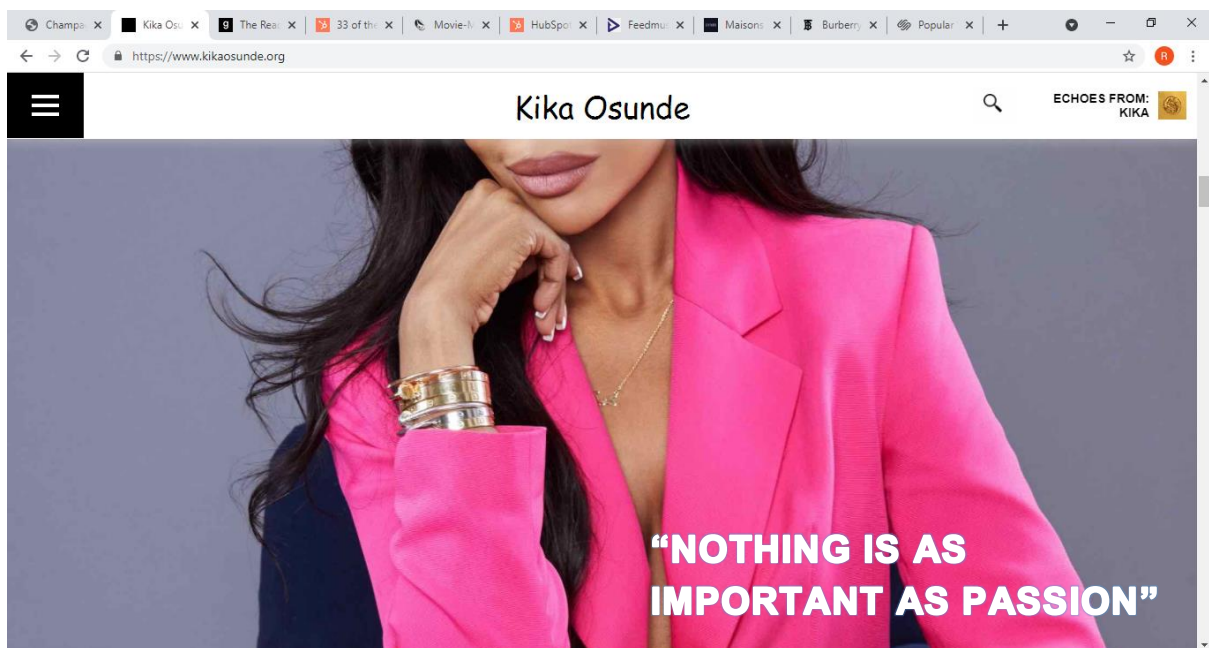

1. We need a vibrant image on the front cover as the current one is not strong enough – so please change.
2. The quote should be used on top of the image but you need to rewrite it – try using a shorter statement:
3. Alternatively could we maybe play with an animation on the home page to see if this works with a quote?

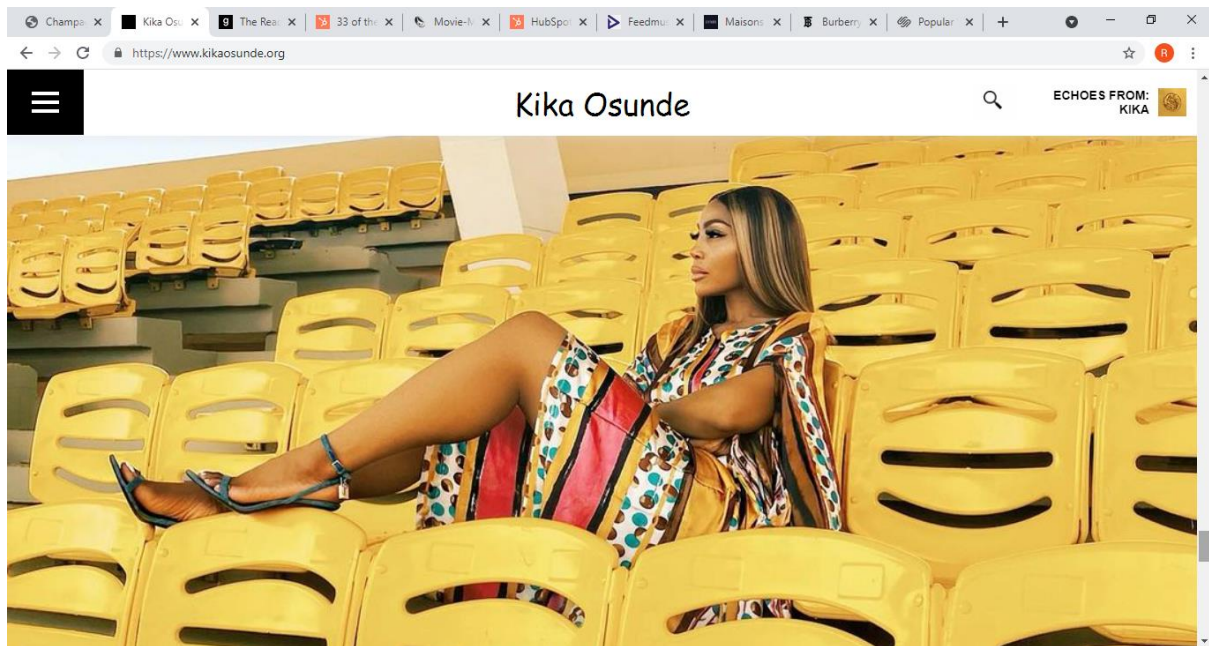

Examples of full bleed images with large quotes over the image instead of Kika Osunde as its repetition.

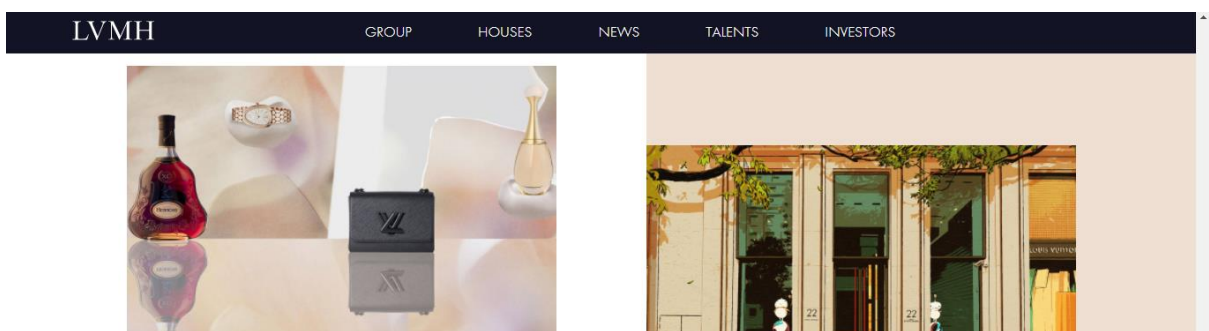

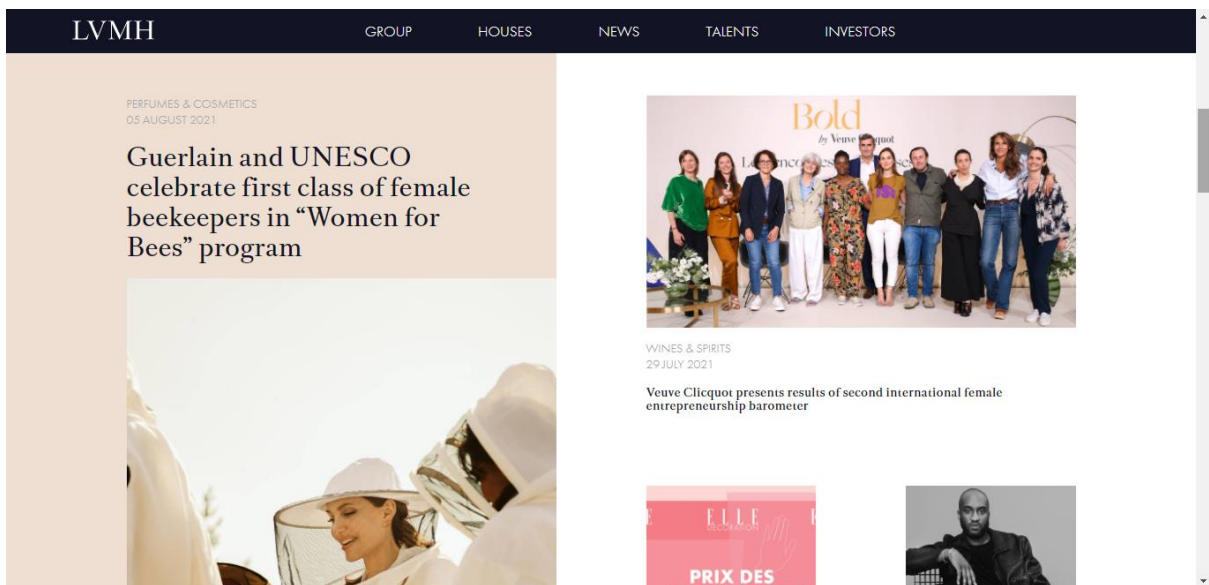

4. Maybe try leading the page with this image but crop it, so its more humanitarian and introduce a quote on the bottom left corner in quite with speech marks in the same font that you will now use for Kika Osunde?

Other Pages i.e Bio

5. The structure and layout of that page is too bland and needs further development where possible.
6. Examples of a varied vibrant structure to take inspiration from. Use snippets from Kika's bio to create feature articles on some of her pages, as make people find further pages more interesting.

7. Rephrase statement used on website and in bio.

Bio will be re-written again at some point so it reads more fluently, as there are some grammatical errors.

“The foundation of any great mission in life is being able to look at somebody straight in the eye and being able to hear them. To hear someone, rather than seeing them, is how we become united, united as one, in our dreams and aspirations”

KIKA OSUNDE
